

Alternating Pressure Mattress+Pump system

Item no.5800(8000T)

Lateral Rotation Mattress 5800 is ideal for ulcer therapy, providing the therapeutic benefit of pressure relief and skin moisture management. Constantly rotates the patient from side to side cyclically change pressure points. It can reduce the nursing heavy load of caregivers and provide clinical and cost effective outcomes. It can improve circulation and provides pressure relief without disturbing the patient. Believe that you will do the best choice-5800.

Support Surface: Alternating Pressure Mattress+Pump system

Item no.5800(8000T) Features/Function

1. Skin Massage, Bed sore prevention, Enhance blood circulation help the patient who stroke/ spinal injury/diabetes.
2. Constant pressure flow helps to adjust pressure supply making it very stable for the patients.
3. air volume above 4L, 220V 50Hz
The pressure range: 40-100mm Hg.
4. A-B-C alternating. (3way in 1)
6. 6 inch 21 tubes.
7. alternating cycle time: 8-10 mins.
- 8.Reduce moisture and heat accumulation.
- 9.Good ductility, high durability.
- 10.No deformation of the characteristics.
- 11.Easy to clean and maintain.
- 12.Minimal operating and ambient noise.

Alternating Pressure Mattress+Pump system

Function

1. Pump Model: Prima
2. Power: 110 / 220V
3. Pressure Range: 40-100mm Hg
(Air volume above 4L.)
4. Mechanical Dial Pressure Control
5. With low pressure light indicator
6. Auto-Turn-Lateral Rotation
6. A-B-C alternating.
7. One year warranty.
8. With double metal hangers provide ease of connection to most medical beds. Handle for easy carry.
9. Anti-microbial filter on the pump kills bacteria and thus further reduces cross-infection risk.
10. *Quick Connectors-Transport Function: Mattress can be transformed from a powered support surface to a sealed static air mattress, providing a uniform stable surface for patient transportation.

***Optional**

Alternating Pressure Mattress+Pump system

***Optional**

Function

1. Mattress size: 185x80x17cm
2. Mattress Cover: Nylon TPU standard Zipper Cover (blue)-Two-way stretch durable and breathable vapour permeable and water resistant mattress cover. Low shear and anti-friction.
3. Cell: Nylon TPU(blue) 210D
4. Base cover: Blue nylon PVC in blue.
5. INT logo on the Mattress cover.
6. *CPR Function: allows quick deflation of the mattress in case of need by pulling out the highly visible CRP-tags or disconnecting the CPR-connector.
7. *With Low air loss:6 Cells*2Laser Holes.
